REPORTING CURRENCY

CONSOLIDATED FIRE LAKE NORTH (CFLN) PROJECT

The Company continued exploration activity on the CFLN Project and spent \$1.9million in the quarter to 30 September 2014.

During the quarter, the Company completed the remainder of 34 backhoe dug test pits and drilled the remaining holes of the 24 hole geotechnical campaign initiated during the previous quarter. The project database was up-dated to include logging and analytical results from the 2014 drilling campaigns. The database was also updated with re-logging of drill intersections to acquire data related to hardness of samples. The QAQC results were evaluated and the database was subject to internal and external audits.

Interpretations of drill sections were up-dated and the 3D geological models were regenerated for each of the West and East deposits. A new block model mineral resource estimate was generated internally by Champion.

Champion contracted the services of P&E Mining Consultants to complete an independent audit of the CFLN project database and produce an updated Mineral Resource Estimate in compliance with JORC and Canadian National Instrument NI43-101 (NI43-101) guidelines.

The Company continued work on preparing a JORC Resource & Reserve Statement. The successful spring 2014 drilling campaign data has been combined with data from the previous resource estimate reported under the NI43-101 to prepare a JORC estimate. The Company reported a JORC Resource & Reserve Statement on 27 October 2014.

OTHER PROJECTS

Champion completed prospecting magnetic anomalies on each of the Casse Lake and Claire Lake properties within the Cluster 2 Fermont Holdings of Champion.

Champion added 6 claims to the Moire Lake Project located in within the Cluster 1 Holdings and added 11 claims to the Casse Lake Project located within the Cluster 2 Holdings.

There were minimal activities at the Company's other projects.

QUÉBEC GOVERNMENT COMMITS UP TO \$20m FOR RAIL FEASIBILITY STUDY

The Government passed the required decree on 1 October 2014 to invest up to \$20 million for the feasibility study which, in Phase 1, will cover a rail spur linking the port of Sept-Îles with the Company's CFLN property.

The Company has previously announced on 24 July 2014 its intention to participate in the feasibility study. During the quarter ended 30 September 2014, the Company formed a limited liability partnership (LLP) with the Government of Québec and co-miner Lac Oteluk Mining Inc. (a joint venture between Adriana Resources Inc. and WISCO International Resources Development & Investment Limited) to manage the implementation of the feasibility study.

At the conclusion of the AGM, Thomas Larsen, Donald Sheldon and James Wang resigned from the board as they were not up for re-election.
