MINING OPERATIONS: BLOOM LAKE

The second quarter of the fiscal year ended March 31, 2019 was the first commercial production quarter of Champion Iron Limited ("Champion" or the "Company"). During the period, the Company produced 1,858,000 wmt of high grade 66% iron ore concentrate and sold 1,932,000 dmt. Champion realized net revenues totaling \$174,700,000 representing a gross realized price of US\$92.49/t before shipping (CFR China) for a net realized price of US\$69.13/t (CA\$ 90.42/t). A premium of 37.5% above the benchmark 62%FE Index was realized during quarter for the high-quality concentrate produced at Bloom Lake.

CONSOLIDATED FIRE LAKE NORTH (“CFLN”) & OTHER PROJECTS

During the three months ended September 30, 2018, the Company invested \$823,000 in exploration and evaluation on the Company’s tenements located in the Labrador Trough.

The exploration program at the Powderhorn property located in Newfoundland started at the beginning of the year intersected several zinc-rich intervals during the quarter. As a result of the drilling program, expenditures totaling \$170,000 were incurred. The exploration program at Powderhorn targets the same volcanic units that host the Buchans Mine, located 60 km away, a rich volcanogenic massive sulphide deposits.

Expenditures totaling \$470,000 were incurred on a year to date basis towards the scoping study of the Bloom lake mine Phase 2 expansion.

CASH POSITION

As at September 30, 2018, Champion had \$115,625,000 cash on hand. The cash position results from customer receipts and other receivable totaling \$111,603,000 during the period. At the end of the period, Trade Receivables were \$86,400,000. Immediately subsequent to the period end, payments totaling US\$24,200,000 were received for two shipments. Final drawdown on debt facility totalling US\$34,700,000 completed during the quarter and contributed positively to the cash on hand.

The Company estimates that the current cash and receivables balances combined with sales of high-grade 66% concentrate forecasted will be sufficient to meet the future estimated cash outflow for the next quarter ended December 31, 2018.

MINING TENEMENTS AT 30 SEPTEMBER 2018

In connection with the closing of the Debenture, QIO entered into an off-take agreement with Glencore pursuant to which Glencore secures global off-take rights for life-of-mine of Bloom Lake with fixed commercial terms for a 10-year period for all tonnes of future iron ore production at Bloom Lake not sold in Japan under the existing off-take agreement with Sojitz. In the event of a mandatory conversion as described above, the off-take terms will apply for the life-of-mine of Phase 1 of Bloom Lake and Glencore will have the option to convert the marketing fees under the off-take terms into a FOB-based royalty under certain circumstances.
