The Board’s primary role is to manage or supervise management of the business and affairs of the Company. To fulfil this role, the Board is responsible for the stewardship of the Company, oversight of the management and the overall corporate governance of the Company including its strategic direction, establishing goals for management and monitoring the achievement of these goals.

Composition

The composition of the Board is determined using the following principles:

- A majority of the directors must be independent, and must possess a broad range of business expertise; and
- Directors should bring characteristics which allow a mix of qualifications, skills, experience, expertise and diversity on the Board.

Membership of the Board shall be disclosed in the Company’s annual report and management proxy circular, including whether a director is independent or not independent. Loss or gain of independence will be disclosed as applicable.

In determining whether a director is independent, the Board will consider whether the director has a direct or indirect relationship with the Company which could, in the view of the Board, be reasonably expected to interfere with the exercise of the director’s independent judgement and whether the director complies with the other independence requirements set forth in the ASX Corporate Governance Principles and Recommendations and National Instrument 52-110 - Audit Committees.

The Board may develop a Board skills matrix to assist in the assessment of the skills of the Board and the identification of any gaps in the skill set of the Board that is required to be filled. The Board skills matrix, if so developed, will be reviewed and updated periodically as deemed necessary by the Board.

- Reviewing Board agendas and giving input to the Chairman in advance of Board meetings.
- Presiding over meetings of the independent directors and communicating the results of these meetings to the Chairman, when appropriate.

The Corporate Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board.

The appointment and removal of the Corporate Secretary is a matter of the Board. If deemed appropriate, the responsibilities of the Corporate Secretary may be shared by two Corporate Secretaries or Company Secretaries appointed by the Board.

Where possible this includes meetings with key executives, tours of the mine site and premises, an induction package and presentations. Information conveyed to new directors includes access to a copy of the Company's corporate governance policies, including this charter, and to a copy of the Constitution of the Company, details of Board meeting arrangements and contact information for the Chairman, any Lead Director and the Corporate Secretary.

New directors are also provided with letters of appointment to the Board, setting out the key terms and conditions relative to the appointment.

Independent Professional Advice

The Board collectively and each director has the right to seek independent professional advice at the Company's expense, up to specified limits, to assist them to carry out their responsibilities, subject to the prior approval of the Chairman whose approval will not be unreasonably withheld. If permission is withheld, the matter may be referred to the whole Board.

2. BOARD PERFORMANCE EVALUATION POLICY

This policy will be reviewed periodically by the Board. The current version of this policy was approved by the Board on August 25, 2020.

3. CODE OF CONDUCT

Champion Iron Limited (the “Company”) is committed to promoting good corporate conduct grounded by strong ethics and responsibility.

This code addresses matters relevant to the Company’s legal and ethical obligations to its stakeholders and is designed to promote integrity and to deter wrongdoing. It may be amended from time to time by the Board of Directors of the Company (the “Board”), and will be published on the Company’s website.

This code applies to all directors, officers and employees of the Company and its subsidiaries. Where applicable, references herein to the “Company” shall include the Company’s subsidiaries.

Purpose

All stakeholders are entitled to expect the highest professional standards from directors, officers and employees of the Company. Compliance with this code and the Company’s other policies will ensure compliance with the Company’s legal and ethical obligations and will contribute to the good corporate governance of the Company.

Discharge of Duties

Directors and officers must discharge their duties at the highest levels of honesty, loyalty and integrity, acting in good faith with prudence and diligence and in the best interests of the Company and its stakeholders. This entails taking personal responsibility for all issues over which they have control, and for reporting any observed breaches of laws or regulations. It also requires that they do not act in ways which would lead others to question their commitment to the Company and its stakeholders.

All directors will undertake prudent and diligent analysis of all proposals placed before the Board, demonstrate commercial reasonableness in decision-making and will act with a level of skill expected from directors of a publicly listed company.

Relationships

Performance-enhancing teamwork relies on a workplace where people are treated fairly, are respected by their colleagues, and encourage each other to develop corporately and personally. All directors, officers and employees are all responsible for making this happen.

The Company is an equal opportunity employer, and discrimination or harassment of any kind will not be tolerated.

In dealings both inside and outside the Company, individual directors, officers and employees will value integrity, accuracy, conciseness and timeliness.

Compliance with Laws and Ethics

Directors, officers and employees must respect the laws, customs and business practices of the countries in which we operate, without compromising this code’s principles. They must also comply with the ethical and technical requirements of relevant regulatory and professional bodies, promote ethical behaviour and not engage in conduct likely to bring discredit upon the Company.

Conflicts of Interest

All directors have an obligation to be independent in judgment and actions and as directors will take all reasonable steps to be satisfied as to the soundness of all decisions of the Board.

In circumstances where personal interests of a director, officer or employee may conflict with those of the Company, steps must be taken to eliminate or manage such conflict.

Directors and officers must disclose to the Board actual or potential conflicts that may or might reasonably be thought to exist between the interests of the director or officer and the interests of the Company. The Board can request a director or officer to take reasonable steps to remove the conflict of interest. If a director cannot or is unwilling to remove a conflict of interest, then such director must absent himself or herself from the room when discussion and voting occur on matters to which the conflict relates. The entry and exit of the director concerned will be minuted by the Corporate Secretary. Directors do not have to absent themselves when either the conflict of interest relates to an interest common to all Company shareholders, or the Board passes a resolution that identifies the director, the nature and extent of the director's interest and clearly states that the other directors are satisfied that the interest should not disqualify the director concerned from discussion and/or voting on the matter.

An employee must disclose to his/her supervisor in writing any conflicting interest of the nature described in the preceding paragraph.

Related Party Transactions

Related party transactions include any financial or business transaction between a director or officer and the Company and will be reported in writing to each Board meeting.

In general, the Corporations Act 2001 requires related party transactions to be approved by the shareholders; the Board cannot approve these transactions. An exemption to this requirement occurs where the financial benefit is given on arm's length terms. A robust independent process including review by the Audit Committee will be followed by the Board when determining whether a financial benefit is given on arm's length terms. The Board has also resolved that where applications are made by a related party to a director or officer of the Company, then the director or officer shall exclude himself/herself from the approval process. Related party for this process means a spouse or de facto spouse of the director or officer, a parent, son or daughter of the director or officer or their spouse or de facto spouse, or an entity over which the director or officer or such a related party has a controlling interest. A person is also a related party if they were one of these at any time within the previous 6 months or if they have reasonable grounds to believe that they are likely to become a related party at any time in the future or they act in concert with a related party with an understanding that they will receive a financial benefit.

The Board will also ensure compliance with the disclosure, minority shareholder approval and formal valuation requirements set forth in Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions as they apply to related party transactions and other special transactions involving the Company.

Confidentiality

Directors, officers and employees in possession of undisclosed commercially sensitive or privileged or price-sensitive information relating to the Company should not disseminate it to colleagues unnecessarily, and certainly not to outside parties, except in the necessary course of the Company's business, and should be aware that insider tipping is prohibited under applicable law and regulations.

All directors, officers and employees should follow the Company's Trading Policy and should be aware that they are prohibited by law from trading in the Company's securities or related financial instruments if they possess undisclosed commercially sensitive or privileged or price-sensitive information.

Use of the Company's Assets

The Company's assets are critical to its business and future success. They include, for example, office and plant equipment. Directors, officers and employees cannot make personal use of the Company's assets without permission.

Corruption and Bribery

The Company takes a zero-tolerance approach to corruption and is committed to carrying out business fairly, honestly and openly, without improper influence. Bribery and other acts of corruption are prohibited. No director, officer or employee, either directly or indirectly, with the intention of obtaining any advantage in the course of business, shall solicit, receive, offer, promise or provide anything of value to or for the benefit of a public official or entrusted private sector employee, or a family member or close associate of the official or employee, as consideration for an act or omission by the official or employee in connection with the performance of their duties or functions.

For the purposes of this code, the term "public official" includes: (i) a politician, judge or employee or agent of an Australian or Canadian federal, state, provincial, territorial, municipal or local government or of a foreign government, (ii) an employee or agent of a governmental entity or body (such as a crown corporation or state-owned enterprise) that performs duties or functions on behalf of an Australian or Canadian federal, state, provincial, territorial, municipal or local government or of a foreign government, and (iii) an employee or agent of a public international organization such as the United Nations or World Bank.

The relevant advantage or benefit can be monetary or non-monetary. It is not limited to cash or property, but includes any financial or other advantage such as gifts, gift certificates, vouchers, services, discounts, loans, hospitality, travel, meals, daily expense allowances, charitable contributions, sponsorships, or anything else of value.

The engagement of third parties (such as consultants, contractors, suppliers, intermediaries, representatives and agents) raises special concerns for compliance with this code, as the Company has less control over the conduct of third parties than it does over the conduct of its own personnel, whom it can train and discipline. Therefore, the Company must exercise due diligence to ensure that it has formed relationships with reputable and qualified third parties.

Giving or Receiving Gifts

Directors, officers and employees shall refrain from giving or receiving gifts (other than gifts or mementos of nominal value that are customary or business related) that could compromise or appear to compromise the judgment of the receiver in connection with fulfilling his or her duties or create or appear to create an obligation on the receiver towards the person giving the gift, or in circumstances that could constitute bribery or corruption of a public official or entrusted private sector employee or where the giving or receiving of such a gift is otherwise prohibited under applicable laws and regulations. Giving or accepting gifts in the form of cash or cash equivalents (for example, gift certificates, vouchers, services, discounts or loans) is strictly prohibited.

Political Contributions

The Company does not participate directly or indirectly in politics. Payments to political parties, party officials and political candidates on behalf of the Company are strictly prohibited.

Directors, officers and employees are able to make donations to political parties of their choosing, but under no circumstances will the Company reimburse a director, officer or employee for a political donation, nor should a political donation be made by a director, officer or employee on the Company's behalf. Directors, officers and employees are expected to be aware of limits on personal donations to political parties under applicable laws and regulations.

Record Keeping

All Company accounts and records must be accurate, and fully reflective of all transactions. Integrity in record keeping requires that any amounts paid for services are accurately described and recorded and can be justified in the context of the services being provided, and the skills and experience of the person or third party undertaking the work. Records must be maintained in accordance with the Company's accounting and finance policies and procedures and relevant internal controls.

Competition

The Company competes fairly, ethically and honestly in the situations and markets in which it operates. It does not use collusive, coercive or misleading practices, or falsify or wrongly withhold information.

Sustainable development

The Company envisions its success by creating value in a way that meets long-term business needs while considering its stakeholders and the environmental, social and economic context in which it operates.

The Company must support environmental protection in order to help keeping communities safe and healthy and preserving life-supporting ecosystems. The Company must also promote social equity and the respect of individuals in all their diversity and generate positive benefits for the host communities and their members.

The Company encourages the full and active participation of all of its directors, officers and employees in the uncompromising application of the highest standards in occupational health and safety.

The Company and its directors, officers and employees must comply with all applicable occupational health and safety laws and regulations.

The Company is committed to providing a safe and healthy working environment with minimal risk for occupational health and safety. To that end, the Company must implement appropriate programs and equip its employees with the necessary tools and training in order to eliminate risk and hazard sources and to encourage them to take ownership of their health, safety and well-being.

The Company must implement an ongoing improvement process to enhance its health and safety performance on a continuous basis.

Policy Statement

The Company believes that employee hires and promotions, including executive officer appointments, and the election or appointment of Board members should be based on merit, and remains committed to selecting the best persons to fulfill these roles. At the same time, the Company recognizes that diversity is important to ensure that the profiles of directors and executive officers provide the necessary range of perspectives, experience and expertise required to achieve effective stewardship and management, and that diversity is a business, social and ethical imperative and that the Company’s stakeholders expect the Company to foster the creation and maintenance of an inclusive workplace.

The Company believes that diversity is an important attribute of a well-functioning Board and an efficient executive team. The Company further believes that building a diverse Board and executive team is a critical step to building a diverse and inclusive culture for all employees of the Company and its subsidiaries.

The Company recognizes that gender diversity is a significant aspect of diversity and acknowledges the important role that women with appropriate and relevant skills and experience can play in contributing to the diversity of perspective on the Board and in executive officer positions. - Complying with the continuous disclosure obligations contained in the ASX Listing Rules, the TSX Company Manual, the applicable sections of the Corporations Act 2001 and applicable Canadian provincial securities laws and regulations (the “Regulatory Framework”); and
- Providing equal opportunity for all stakeholders to receive externally available information issued by the Company in a timely manner.

This policy covers financial markets communication, media contact and continuous disclosure issues. It forms part of the Company’s corporate governance policies and is made available to all employees and published on the Company’s website.

Guiding Principle

The Company will immediately notify shareholders and the market via an announcement to the Australian Securities Exchange (the “ASX”), a news release and, where required, a material change report filed on the SEDAR website of any material information concerning the Company and its securities, subject to the exceptions set forth in the Regulatory Framework.

In addition, the Company will ensure that it does not communicate or disclose any material, privileged or price sensitive information to an external party, except where that information has previously been publicly disclosed as contemplated above or where such communication or disclosure is required in the necessary course of business of the Company and is therefore allowed to be made on a confidential basis under the Regulatory Framework.

Material, Privileged or Price Sensitive Information

“Material information” means any information relating to the business and affairs of the Company that results in or would reasonably be expected to result in a significant change in the market price or value of any of the Company’s securities, and includes both a “material fact” and a “material change” as defined under applicable Canadian provincial securities laws.

“Price sensitive information” means that information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company’s securities. For this purpose, a reasonable person would be taken to expect information to have a material effect on the price or value of securities if the information would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the securities.

“Privileged information” means any information concerning the Company and its securities that has not been publicly disclosed and that could affect the decision of a reasonable investor.

Protocol for Reporting of Material Information

The Company’s protocol in relation to the review and release of ASX announcements and news releases for reporting of material information is as follows:

- The ASX announcement and news release will be submitted to the Board for review and approval, and, where applicable, the Board may seek a recommendation from its Audit Committee or Remuneration and Nomination Committee;
- The ASX announcement and news release will be given to ASX and pre-cleared with IIROC Market Surveillance;
- The Company will issue the ASX announcement and news release and ensure that the Company's website is updated; and
- The Company will provide copies of all material market announcements to the Board promptly after they have been made.

The Audit Committee will review the audited annual and interim financial statements and any press releases and reports which accompany published financial statements (including management's discussion and analysis, related press releases and conference call presentations), as well as any financial outlook or future-oriented financial information disclosed by the Company (focusing on the reasonableness of assumptions used and appropriateness of disclosure), before submission to the Board, recommending their approval. Audit Committee will also review any periodic report, announcement or press release containing financial information that is not audited or reviewed by an external auditor, before submission to the Board, recommending their approval.

The Company may request a trading halt to maintain orderly trading in the Company's shares or securities. The General Counsel and Corporate Secretary will manage the process in consultation with the Executive Chairman and the Chief Executive Officer as required.

Authorised Spokespersons

Only authorised spokespersons are allowed to make public statements to external parties, shareholders, investors, stockbroker's analysts or the media in relation on any matters affecting the Company.

Currently, those authorised spokespersons are the Executive Chairman and the Chief Executive Officer or their delegates nominated for that purpose.

Those authorised spokespersons may clarify information that the Company has publicly released but will not comment on material, privileged or price sensitive information that has not been publicly disclosed.

Any non-authorised director, officer or employee who receives a request for comment from an external third party is to refer the enquiry to the Chief Executive Officer.

The Company's directors, officers and employees must be made aware of this policy.

Employees must disclose any information which comes to their attention and is believed to potentially be material, privileged or price sensitive information to their immediate supervisor or a member of the Company's executive team.

Employees must be made aware of the "no comment policy" to external parties on any matters which may potentially be material, privileged or price sensitive information.

Contact with the Market

The Company's representatives interact regularly with the market on the Company's activities in a number of ways, including open briefings, one-on-one briefings and market announcements. At all times when interacting with external parties, shareholders, investors, stockbroking analysts and market participants, the Company's representatives should adhere to the guiding principle set out in this policy.

The Company may hold open briefings (i.e. where all members of a relevant group are invited) with shareholders, investors, stockbroking analysts and/or market participants to discuss information that has been released to the market, including regularly-scheduled analyst calls to review the Company's quarterly results. At these briefings, the Company's representatives may provide additional background information to assist participants in their understanding of the Company's business operations and activities, but should not disclose any material, privileged or price sensitive information during any open briefing. The Company will observe a quarterly quiet period, between the end of each quarter and the release of the Company's quarterly, half-yearly or annual financial results, during which no comments with respect to the quarter's operations or expected financial results will be provided to shareholders, investors, stockbroking analysts and market participants and communications should be limited to responding to inquiries concerning publicly available information (including any previously-disclosed production results for such quarter) or non-material information.

Review of Analyst Reports

The Company recognises the important role performed by analysts in assisting the establishment of an efficient market with respect to the Company's securities. However, the Company is not responsible for, and does not endorse, analyst reports that contain commentary on the Company. The Company will not provide any material, privileged or price sensitive information in response to such reports. The reports may be reviewed only to correct factual inaccuracies. Any correction of factual inaccuracies by the Company does not imply endorsement of the content of these reports. The Company will not publish any analyst report on its website, and the Company's representatives should not redistribute an analyst report to any external party.

Managing Market Speculation and Rumours

Market speculation and rumours, whether substantiated or not, have a potential to impact the Company's share price. Speculation may also contain factual errors that could materially affect the Company.

The Company's general policy on responding to market speculation and rumours is that "the Company does not respond to market speculation or rumours". However the Company may issue a statement in relation to market speculation or rumour where and when it considers it necessary.

Speculation may result in the ASX or IIROC Market Surveillance formally requesting disclosure by the Company on the matter, in which case the Company will respond to the request.

10. TRADING POLICY

Purpose of this Policy

It is illegal under the laws and regulations of Australia, Canada and other jurisdictions to trade in shares and other securities while in possession of privileged or price-sensitive information and to communicate such information to others who you would expect to trade in such shares or securities. The prohibited activities often are called “insider trading” and “tipping.”

The rules and procedures outlined in this trading policy have been implemented in order to prevent improper trading in the securities of Champion Iron Limited (together with its direct and indirect subsidiaries, the “Company”) and the improper communication of privileged or price-sensitive information. In addition, this policy is aimed at preventing directors, officers and employees of the Company and its subsidiaries from engaging in activities that, although not illegal, may expose them or the Company to potential reputational risk.

Definitions

“Board” means the Board of Directors of the Company.

“Company Securities” means shares, options, notes and any other securities that the Company may issue from time to time (such as bonds or convertible securities) and includes, for the purposes of this policy, any instrument, agreement or security whose value, market price or payment obligations are based on the value, market price or payment obligations of a security of the Company (such as deferred stock units, performance share units and securities the subject of a holding lock) and any other instrument, agreement or understanding that affects, directly or indirectly, a person’s economic interest in a security of the Company.

“Designated Insider” means a director, officer or employee of the Company or a subsidiary that the Company designates as a person who is subject to certain trading restrictions due to their access to Privileged or Price-Sensitive Information about the Company, including, without limitation, “key management personnel” or “KMP” having authority and responsibility for planning, directing and controlling the activities of the Company whether directly or indirectly, and family members and closely connected persons of such people designated by the Company as being subject to certain trading restrictions.

“Price Sensitive Information” means that information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company’s securities. For this purpose, a reasonable person would be taken to expect information to have a material effect on the price or value of securities if the information would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the securities.

“Privileged Information” means any information concerning the Company and its securities that has not been publicly disclosed and that could affect the decision of a reasonable investor.

General Prohibitions

Dealing Prohibition

Directors, officers and employees of the Company and its subsidiaries must not apply for, acquire, or dispose of, or otherwise trade in, Company Securities or enter into an agreement to apply for, acquire, or dispose of, or otherwise trade in, Company Securities, while in possession of Privileged or Price-Sensitive Information, subject to the exceptions under applicable laws and regulations. They are also prohibited from trading in another company's securities while in possession of Privileged or Price-Sensitive Information regarding that company gained during the course of their work or functions as directors, officers and employees of the Company and its subsidiaries.

Communication Prohibition

Directors, officers and employees of the Company and its subsidiaries are prohibited from directly or indirectly disclosing or communicating Privileged or Price-Sensitive Information to another party where they know, or ought reasonably know, that the other person would or would be likely to trade in Company Securities or procure another person to trade in Company Securities, or "tipping" or recommending that another party trade in Company Securities or another public company's securities while they have knowledge of Privileged or Price-Sensitive Information. Tipping is a violation of laws and regulations even if the person disclosing the information does not personally make a trade or otherwise benefit from disclosing the information.

There are limited circumstances in which Privileged or Price-Sensitive Information may be disclosed in the necessary course of business if there are no grounds to believe the Privileged or Price-Sensitive Information will be used or disclosed contrary to applicable laws and regulations. If a director, officer or employee of the Company or a subsidiary believes he or she is faced with these circumstances, he or she should contact the General Counsel and Corporate Secretary to confirm whether Privileged or Price-Sensitive Information may be disclosed.

Procurement Prohibition

Directors, officers and employees of the Company and its subsidiaries must not procure another person to apply for, acquire, or dispose of, or otherwise trade in, Company Securities, or enter into an agreement to apply for, acquire, or dispose of, or otherwise trade in, Company Securities while in possession of Privileged or Price-Sensitive Information.

Consequences of Non-Compliance

The consequences of insider trading and tipping can be severe. Directors, officers and employees of the Company and its subsidiaries who contravene applicable laws and regulations will be subject to disciplinary actions, which may include restrictions on future participation in equity-based incentive plans or termination of employment without notice or payment in lieu of notice, and expose themselves to criminal, penal and administrative actions by the relevant authorities, which could lead to substantial fines and imprisonment.

Additional Restrictions applicable to Reporting Insiders and Designated Insiders

Trading Restrictions and Blackout Periods

All Reporting Insiders and Designated Insiders are subject to regular blackout periods in connection with the release of the Company's quarterly, half-yearly and annual financial results. Reporting Insiders and

Designated Insiders may only trade in Company Securities within the period beginning on the third business day following the release of the Company's quarterly, half-yearly and annual financial results and ending at the close of business on the last day of the following financial quarter.

In addition, the General Counsel and Corporate Secretary may from time to time as a result of special circumstances relating to the Company, such as a material project, event or transaction, designate a discretionary blackout period for such length of time as is deemed necessary and determine the Reporting Insiders and Designated Insiders to which such discretionary blackout period applies.

Excluded Trading

Notwithstanding the foregoing trading restrictions, automatic purchases or dispositions in accordance with applicable laws and regulations may be made during blackout periods under any written automatic plan established by the Company prior to the relevant periods.

Pre-Clearing Trades

All Reporting Insiders and Designated Insiders who wish to trade in Company Securities must first submit a pre-clearing request to the General Counsel and Corporate Secretary and the Executive Chairman. If the Executive Chairman wishes to trade in Company Securities, he must first submit a pre-clearing request to the General Counsel and Corporate Secretary and the Lead Director.

A pre-clearing request should specify the type of transaction (e.g., purchase, sale or exercise of stock options and confirmation on the intention to subsequently hold or sell the underlying shares) and include a confirmation from the Reporting Insider or Designated Insider that he or she is not in possession of any Privileged or Price-Sensitive Information.

No trade by a Reporting Insider or Designated Insider may be carried out without the pre-clearance of the General Counsel and Corporate Secretary and the Executive Chairman, which may be given or refused at the discretion of the General Counsel and Corporate Secretary and the Executive Chairman, or in the case of a request by the Executive Chairman, by the General Counsel and Corporate Secretary and the Lead Director.

Written notification under this policy via email is acceptable, and any pre-clearance given will be valid for the next five trading days (or such shorter or longer period as may be specified by the General Counsel and Corporate Secretary or the Executive Chairman), unless revoked by the General Counsel and Corporate Secretary or the Executive Chairman. Reporting Insiders and Designated Insiders should ensure that no trading of Company Securities occurs if the Reporting Insider or Designated Insider comes into possession of any Privileged or Price-Sensitive Information following receipt of a pre-clearance to trade.

The decision whether to provide pre-clearance for a Reporting Insider or Designated Insider to trade in Company Securities is final and binding on the Reporting Insider or Designated Insider seeking pre-clearance. If pre-clearance to trade in Company Securities is refused, the Reporting Insider or Designated Insider must keep this decision confidential and not disclose to any other person that the request for pre-clearance to trade has been refused.

Reporting Insiders and Designated Insiders are reminded that, notwithstanding the pre-clearance of a trade by the General Counsel and Corporate Secretary and the Executive Chairman, the pre-clearance of a trade is not an endorsement of the trade and the ultimate responsibility for complying with the insider trading restrictions rests with the individual trading in Company Securities.

Exceptional Circumstances

In exceptional circumstances, the General Counsel and Corporate Secretary and the Executive Chairman may provide written clearance to a Reporting Insider or Designated Insider to trade in Company Securities during a regular blackout period if such Reporting Insider or Designated Insider is not in possession of any Privileged or Price-Sensitive Information and any of the following applies:

- the trade in Company Securities falls in one of the common examples of excluded trading situations provided by the ASX;
- a sale of Company Securities is necessary to alleviate severe financial hardship;
- the Reporting Insider or Designated Insider is required by a court order, or there are court enforceable undertakings, to transfer or sell Company Securities, or there is some other overriding legal or regulatory requirement for him or her to do so;
- there are other circumstances which have not been identified in this policy, that are deemed exceptional by the General Counsel and Corporate Secretary and the Executive Chairman, and the proposed trade in Company Securities is the only reasonable course of action available.

Australian Disclosure Requirements

Directors must notify the General Counsel and Corporate Secretary (and any delegate thereof) of any dealings in the Company Securities immediately when any such dealings occur. The directors appoint the General Counsel and Corporate Secretary (and any delegate thereof) as its agent for the purposes of compliance with the disclosure requirement on directors share trading contained in ASX Listing Rule 3.19A. Directors shall be responsible for providing information to the General Counsel and Corporate Secretary (and any delegate thereof) in order for them to ensure compliance with Listing Rule 3.19A.

Canadian Disclosure Requirements

Reporting Insiders are required to file insider reports on the SEDI website within five days of each trade or other relevant change in accordance with applicable laws and regulations. The General Counsel and Corporate Secretary is available to assist Reporting Insiders in completing and filing insider reports, but the ultimate responsibility for complying with the insider filing requirements rests with the individual trading in Company Securities.

Anti-Hedging Restrictions

Reporting Insiders and Designated Insiders shall not in respect of Company Securities engage in transactions in derivatives in respect of Company Securities (such as put and call options), or any other hedging or equity monetization transaction in which the individual's economic interest and risk exposure in Company Securities is changed (such as collars or forward sales contracts).

Margin Lending and Secured Financing

Reporting Insiders and Designated Insiders must not engage in any margin lending or other secured financing arrangements in respect of Company Securities without prior approval of the General Counsel and Corporate Secretary and the Executive Chairman. If the Executive Chairman wishes to engage in any margin lending or other secured financing arrangements in respect of Company Securities, he must first submit a pre-clearing request to the General Counsel and Corporate Secretary and the Lead Director.

Short Term Dealings and Short Selling

Reporting Insiders and Designated Insiders shall not engage in short term dealings or short selling of Company Securities without prior approval of the General Counsel and Corporate Secretary and the Executive Chairman. If the Executive Chairman wishes to engage in any short term dealings or short selling of Company Securities in Company Securities, he must first submit a pre-clearing request to the General Counsel and Corporate Secretary and the Lead Director.

Board Review and Approval

This policy will be reviewed periodically by the Board. The current version of this policy was approved by the Board on August 25, 2020.

11. MAJORITY VOTING POLICY ON ELECTION OF DIRECTORS

The board of directors (the “Board”) of Champion Iron Limited (the “Company”) has adopted this Majority Voting Policy on Election of Directors which requires that any nominee who receives a greater number of votes “withheld” from his or her election than votes “for” such election, promptly tender his or her resignation to the Board, to be effective upon acceptance by the Board. Any future nominees for election to the Board will be required to confirm that they will abide by this policy.

Majority Voting Requirement

Pursuant to this policy, the forms of proxy for the election of directors will permit the shareholders of the Company (each a “Shareholder” and collectively, the “Shareholders”) to vote in favour of, or to withhold from voting, separately for each director nominee. The Chair of the Board will ensure that the number of votes in favour of or withheld from voting of each director nominee is recorded and promptly made public after the meeting. If the number of proxy votes withheld for a particular director nominee is greater than the votes in favour of such nominee, such director nominee shall be required to promptly submit his/her resignation to the Chair of the Board following the applicable Shareholders’ meeting, effective upon acceptance by the Board. The Board will refer the resignation to the Remuneration and Nomination Committee (the “Committee”).

Consideration and Acceptance of Resignation

Following receipt of a resignation submitted pursuant to this policy, the Committee shall consider whether or not to accept the resignation and shall recommend to the Board whether or not to accept it in accordance with Section 461.3 of the Toronto Stock Exchange Company Manual.

Within 90 days following the applicable Shareholders’ meeting, the Board shall make its decision, on the Committee’s recommendation. In considering the Committee’s recommendation, the Board will consider the factors considered by the Committee and such additional information and factors that the Board considers to be relevant, provided that the Board shall accept the resignation absent exceptional circumstances. Following the Board’s decision on the resignation, the Board shall publicly disclose their decision whether to accept the applicable director’s resignation including the reasons for rejecting the resignation, if applicable. If a resignation is accepted, subject to any corporate law restrictions, the Board may leave the vacancy unfilled or appoint a new director to fill the vacancy. A copy of the news release with the Board’s decision will be provided to the Toronto Stock Exchange forthwith.

A director who tenders his/her resignation pursuant to this policy shall not be permitted to participate in any meetings of the Board or the Committee at which his/her resignation is to be considered.

In the event that a sufficient number of the Committee members receive a greater number of proxy votes withheld than the votes for such member in the same election such that the Committee no longer had quorum, then the remaining members of the Committee, if any, shall not consider the resignation(s) and the Board shall consider whether or not to accept the resignation(s) without a recommendation from the Committee.

In the event that a sufficient number of the Board members receive a greater number of proxy votes withheld than the votes for such members in the same election, such that the Board no longer has a quorum, then such directors receiving a majority withheld vote shall not be permitted to vote in any meeting of the Board at which his/her resignation is considered, however, he/she shall be counted for the purpose of determining whether the Board has quorum.

In the event that any director who receives a greater number of proxy votes withheld than votes in favour of such director's election does not tender his/her resignation in accordance with this policy, he/she will not be re-nominated by the Board. The Committee and Board may adopt such procedures as they see fit to assist in their determinations with respect to this policy.

Exception for Contested Director Elections

This policy does not apply in circumstances involving contested director elections, where an election involves a proxy battle, wherein proxy material is circulated in support of one or more nominees who are not part of the director nominees supported by the Board.

Board Review and Approval

This policy will be reviewed periodically by the Board. The current version of this policy was approved by the Board on August 25, 2020.
